## Description

- Loose stacked-weave design increases surface area on spill; mat starts wicking on contact to save time in critical situations
- Works equally well on land or water; floats when fully saturated
- MeltBlown Mat provides quick, efficient cleanup to help protect the environment from contamination
- MeltBlown polypropylene fibres are naturally hydrophobic and repel water (and float) while only absorbing oils and other hydrocarbons
- Large-diameter MeltBlown polypropylene fibres are randomly assembled to create a lofty Mat that absorbs high volumes of liquid fast
